### About Me

---

As a recent graduate with a Bachelor's degree in Information Systems from Duta Wacana Christian University (DWCU), I specialize in web development with hands-on experience in creating congregation management systems using Laravel and the Bootstrap framework. Driven by a deep passion for continuous learning, I am always honing my skills and expanding my knowledge in web development while eagerly seeking new challenges.

### Education

---

#### Duta Wacana Christian University

(Aug, 2018 – Jul, 2024)

GPA: 3.54 / 4.00

Bachelor of Information Systems

I was a student majoring in Information Systems with a strong interest in web development. During my studies, I was actively involved in various committees and organizations, which helped me develop leadership skills and teamwork.

### Job Experiences

---

#### Internship Full Stack Developer, GPIB Maranatha Tanjung Selor

(Jun, 2023 – Jun, 2024)

- Developed a congregation management website and dashboard using Laravel framework.
- Managed a MySQL database to store congregation data.
- Implemented Bootstrap framework for responsive design.
- Implemented JavaScript to add some features.

#### Internship Back End Developer, GBI Ngadinegaran Yogyakarta

(Aug, 2021 – Dec, 2021)

- Developed a congregation management website using Laravel framework.
- Managed a MySQL database to store congregation data.
- Implemented JavaScript to add some features..

### Project Experiences

---

#### Full Stack Developer, YYY Coffee

(Aug, 2024 – Present)

- Developed a sales point application for YYY Coffee using the Laravel framework.
- Managed a MySQL database to store sales transactions and inventory data.
- Implemented the Bootstrap framework for a responsive and user-friendly interface.
- Utilized JavaScript and jQuery to enhance interactivity and dynamic features.

#### Front End Developer, My Portfolio Website

(Sep, 2024 – Sep, 2024)

- This portfolio website was built using HTML, CSS, and JavaScript. It showcases information about me, the projects I have worked on, my skills, and contact details. Interactive features such as animations and transition effects were added with CSS and JavaScript to provide an engaging and responsive user experience.

#### System Analyst, SiAnji

(Feb, 2021 – Jun, 2021)

- Designed application architecture to meet business requirements and system objectives.
- Prepared complete documentation, including functional specifications, system design, and technical documentation.
- Created detailed and user-friendly manuals to ensure users can effectively operate the system.
- Collaborated with developers and stakeholders to ensure system implementation met business requirements.
- Delivering project presentations and system solutions to clients, as well as providing explanations on system functionality and benefits.

### Additional Information

---

**Hard Skills:** PHP, MySQL, JavaScript, jQuery, CSS, Laravel, Bootstrap, Object-Oriented Programming (OOP)

**Soft Skills:** Teamwork, Time Management, Problem Solving, Detail Oriented, Responsible

### Certifications
